

# Pocomoke City Planning Commission

## Agenda

Meeting Date: Wednesday, August 23, 2017

4:00PM Council Chambers

1. Mobile Cellular Antenna and Equipment attachments to Utility Poles.

Background (as excerpted from correspondence): Mobilitie is a company that is hired by wireless carriers to install wireless infrastructure throughout the country. They are working with Sprint to enhance the data network with small cell antennas in the Utility Right of Way. As data usage continues to grow, they need to create more lanes for the data traffic to go. They propose to attaching an antenna and equipment to existing poles where possible or installing new poles where needed. See Attachments.

2. Zoning Code update (discussion on past work efforts and future schedules).

3. Adjourn
